

July 6, 2009

To whom it may concern:

Mori Seiki is very pleased to announce the agreement it has reached with Royal Products (Division of Curran Mfg. – Hauppauge, NY) as a participant in the Mori Seiki Qualified Peripherals (MSQP) program. Royal Products' formal entry into MSQP began April 1, 2009.

Their authorized peripheral offerings for the Mori Seiki product lines are:

- CNC Collet Chucks (Workholding)
  - Pull-Back
  - Accu-Length™ with dead-length operation
  - Full line of CNC Collet Chuck Accessories
- Filtermist Mist Collection Systems
- Rota-Rack® Rotary Parts Accumulators

For more specific product information or applications, please contact Royal Products' MSQP Program Manager (John Holt at 1-262-389-0460) or Royal Products' Applications Engineering Department at 1-800-645-4174.

Sincerely,

A handwritten signature in black ink that reads "Fred Puzon". The signature is written in a cursive, flowing style.
